

The leading education video platform

Panopto was created at Carnegie Mellon University by educators for educators. Since 2007, we've built the easiest-to-use platform for managing all your video assets, integrating video into your LMS, capturing lectures, recording flipped classroom videos, and more.

The easiest-to-use video management system

With Panopto, the University of Arizona integrates video directly with its LMS, optimizes storage to balance playback and cost, and simplifies technical support and administration. All of which is critical, because UA students now watch a quarter million hours of video annually.

The most flexible tools for capturing and streaming video

At Wharton, Panopto enables the school to instantly provision any lecture hall with any recording equipment. At Butler, Panopto allows faculty to capture and share flipped classrooms with ease. And at Sauder, Panopto helps the team record 400 student presentations every week.

The industry's top-rated customer service and support

"There are so many products out there that promise great capture, but no other solution delivers support like Panopto." Jimmy Lieu, Director of IT at the Wharton School of the University of Pennsylvania, is just one of the voices that have given Panopto Support a 99% positive rating — 5 years running.

The world's top academic institutions choose Panopto:
