**Panopto**™

Search inside your videos

Instantly find and fast-forward to any word spoken or shown on-screen in any recording.
Forrester Research calls it "The Best Support for Video Search". www.panopto.com/smart-search

Search your entire library
Search across thousands of videos to find the precise moment where a topic was covered.

Search inside your videos
Never tag another video. With *Smart Search*, searching video is as easy as searching the web.

Search federation
Search your Panopto video library from within your CMS, LMS, or other apps.

Automatic speech recognition
Panopto enables you to find any word spoken by any speaker in your videos.

Optical character recognition
Find any word or phrase that appears on-screen in each of your videos.

Automatic metadata indexing
Find any word that appears in your slide decks, notes, comments, and more.

The world's top learning organizations choose Panopto:

# Panopto is the easy-to-use platform for managing all your video content.

Video Management

Store all of your videos in a secure repository on-premises or in the cloud. Use Panopto's "internal YouTube" to easily share your videos.
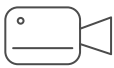

Live Webcasting

Live stream your events and presentations at the click of a button. Webcast your event to ten people across town or 10,000 around the world.

Inside-Video Search

Search for any word spoken or shown on-screen across every video in your library. Panopto's Smart Search is the industry's best.

Recording

Easy-to-use video capture software for Windows and Mac. Record anything from a simple screencast to a multi-camera event.

Upload

Upload your existing video files. Panopto automatically converts them for playback on any device and makes them searchable.

Streaming

Efficiently deliver video across your network and over the Internet to viewers worldwide, with less buffering and higher-quality playback.

Playback

Engage your viewers with interactive video players that support multi-camera HD playback, inside video search, digital notes, and more.

Editing

Our HTML5-based video editor makes it easy for anyone to accomplish common editing tasks from any web browser.

Analytics

Built-in reports provide insights into which videos are most popular, who watched which videos, video engagement, and more.

Mobile Video

Native mobile apps for iOS and Android bring video recording, upload, search, and playback to your viewers' smartphones and tablets.

Integration and APIs

Connect Panopto with your identity provider, LMS, CMS, CRM, or social software, and extend Panopto's functionality with our open APIs.

Customer Service

Panopto Support has earned a 99% customer satisfaction rating, 4 years running. Best of all, it's included standard in every license.
