Integrated Solutions

Corporate Studio

Corporations are increasingly using video to communicate important messages to employees around the world. A dedicated corporate studio provides employees with the opportunity to create professional grade content suitable for viewing by thousands or tens of thousands of employees.

Panopto's integrated solution brings together leading hardware manufacturers for the highest quality recording, and manages post production workflows including editing, captioning, encoding and streaming delivery.

Your Complete Corporate Studio Video Solution

Our technology and integration partners have developed hardware and software that integrates with Panopto. With Panopto as your video management system, here are the key components you'll need to assemble your Corporate Studio.

Encoder

The **Matrox Maevex 6020** is a compact, whisper-quiet device that comes pre-configured to work as a Panopto Remote Recorder out of the box. It enables you to capture presentations, lectures, and more without the need to configure and maintain custom hardware and operating systems.

Camera

The **Panasonic AW-HN38** camera is designed to produce great results in a variety of applications that require high-quality video and precise control—such as conference video, event capture, staging, and distance learning. With precision 22X optical zoom lenses, wide field of view, smooth PTZ functions and exceptional image quality, HN38 cameras are ideal for demanding production.

Notification Light

Plenom's **kuando Alpha and kuando Busylight Omega** USB-enabled lights conveniently plug into your Panopto recording equipment and allow you to easily and affordably make the presenter experience more streamlined by providing a visual cue when the recording has begun.

verbit Captioning

Verbit captioning products integrate with Panopto and use both artificial and human intelligence to enable deep viewer engagement, increased information recall, and compliance with accessibility regulations.

# Panopto is the Easy To Use Platform For All Your Video Content

Record

Easy-to-use software for Windows, Mac, and iOS. Record anything from a simple screencast to a multi-camera event.

Webcast

Live stream your presentation at the click of a button. Webcast to ten people across town or 10,000 around the world.

Search

Find any word spoken or shown on-screen in any video in your library. Panopto's search is the industry's best.

Manage

Panopto has been named a Leader 4 years in a row in Gartner's Magic Quadrant for Video Management.

Upload

Panopto automatically converts your existing video files for playback on any device and makes them searchable.

Stream

Efficiently deliver video across your network and over the Internet to viewers worldwide.

Try Panopto free in your organization.
